^a 2004-2006 FBI *Uniform Crime Reports*

^b Ohio Bureau of Motor Vehicles

^c Computation of loss figures: 2006 FBI *Uniform Crime Reports* (latest figures available) estimated 59% of the autos stolen were recovered, which means 41% of vehicles stolen were not recovered. The FBI also estimated that the unrecovered stolen autos had an average value of \$6,649. To obtain the "Direct Loss of Unrecovered Vehicles" estimates, 41% of the number of 2006 motor vehicle thefts for a given city was multiplied by the average dollar amount (\$6,649). These computations do not take into consideration costs associated with damage to the stolen but recovered vehicles, law enforcement, court administration, injuries, or damage to other property.

^d Numbers supplied by city police departments in OII survey – or – cities weren't listed in FBI's *Uniform Crime Reports*.
